## **DETAILED ACTION**

### ***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance:

Claims 1-24 are allowed.

Regarding claims 1, 11 and 14, Examiner's newly discovered references, Sanders and Newman fail to teach in view of applicant's remarks, after having all the limitations, comparing content of the utterance label, as represented by such coded signals included in the second prompt signal, against content of an expected utterance label, as represented by the predetermined prompt data, to provide call-flow verification and identify call-flow discrepancies. Claims 2-10, 12, 13, 15 and 16 are allowed, since these are dependent on claims 1, 11 and 14 respectively.

Claims 17-20 have already been allowed in the last office action.

Regarding claim 21, Examiner's newly discovered references, Sanders and Newman fail to teach in view of applicant's remarks, after having all the limitations, an activation circuit to enable activation of the encoding circuit so that prompt signals provided by the system include the coded signals in a form usable for call-flow verification purposes. Claims 22-24 are allowed, since these are dependent on claims 21.

Any comments considered necessary by applicant must be submitted no later than the payment the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should clearly labeled "Comments on Statement of Reasons for Allowance."
